Viewing a Response

To view a response to a request, first find the associated request. In the Request View screen, shown in Fig. 1, click on the Show Results tab. If any responses are available for this request, they will be listed on the screen as shown in Fig. 2. Clicking on any of the responses will show the details of the response as shown in Fig. 3.

Figure 1: You can view the responses to this request by clicking the Show Results tab.
Click on the link on the left or the view button on the right to view the response.

Click on the link on the left or "view" on the right.

Figure 2: Click on the link on the left or the view button on the right to view the response.

Figure 3: A response to a particular parameter point.
